### RECOMMENDED CLEANING

- Remove spillages promptly with an absorbent dry cloth. Vacuum and wipe clean regularly with a damp cloth to remove dust particles and prevent build-up of soiling.
- Remove fluids promptly (within 15 minutes), with cold water and clean as above.
- Do not machine wash, fully immerse, dry clean or apply other chemical/stain removers.
- Haz tabs can be used.
- For general soiling use mild non alkaline soapy water with a non-abrasive cloth. Ensure that all cleaning product residues are fully rinsed out. For heavier soiling/infection control use a 5% sodium hypochlorite (bleach) solution.
- Do not apply other chemicals such as furniture polish, stain remover or solvents.
- Do not use felt tip ball point pen or ink to mark, as these can leave permanent stains.
- Remove dye from denim garments immediately, as they will permanently stain if not dealt with properly.
